MODEL NO.: YSI-149
YSI COLONY COUNTER

An ideal instrument for counting Bacterial & Mould colonies in culture work. It provides uniform glare free illumination to minimise the strain on eyes and clearly defines even small colonies. A 100 mm dia lens covers the entire illumination field and its magnification assures highly accurate results. Counting plate with standard Wolfhugel ruling ensures clearly differentiated and sharply defined colonies. Supplied complete with counting plate, lens, cord and plug. Suitable to work on 220 V, single phase, 50 Hz, AC supply.
